

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. I used to receive 1-2 calls per day for unwanted solicitations. Since signing up on the Indiana no-call list, I have recieved NONE. I feel very strongly about Indiana's Telephone Privacy law, as I used to get unwanted calls that would knock me offline, or calls when my children were asleep. I have been very pleased with the results, and would be greatly disappointed to see a lower standard that preempted our existing, functional, and well-working one.
